

1. Potential corrupted components

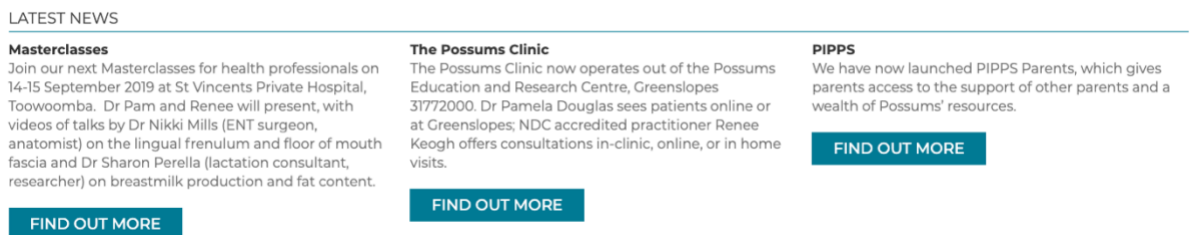

1. <https://possumonline.com/ndc-practitioners>

The hero title overlaps with the text content.

2. <https://education.possumonline.com/programs/sleep-film>

Don't know if the button should be all aligning at the bottom, so I put the screenshot here as a reference.

3. <https://education.possumonline.com/blog/babys-sensory-hunger>

The format of these two references are different, maybe they need to be adjusted to follow the same design?

4. <https://education.possumonline.com/terms-and-conditions>

- <https://education.possumonline.com/donate>

When page width ≥ 1400 px, the bottom title bar of the hero image will be extended.

Responsive design check

1. <https://possumonline.com/> At 340 px, the top band has text overlap issue.

2. The top band has different font-size under <https://education.possumonline.com/> and its **sub-page** (e.g. <https://education.possumonline.com/programs/sleep-film>), no matter what size the screen is.

3. <https://possumonline.com/> Button overlap issue. When page width ≤ 365 px.

ONLINE CONSULTATIONS

Do you need breastfeeding help?
You can book a consultation online
with Pam or Renee at The Possums
Clinic, Greenslopes, Brisbane, or
find a practitioner who is accredited
in Neuroprotective Developmental
Care near you.
