Better care  
Healthier societies

Covid-Care @Home is an innovation challenge covering an ideathon and hackathon aimed at developing innovative solutions for managing covid-19 at home with a focus on rural areas.

## CALL FOR INNOVATIONS UNDER CATEGORIES

1. Management of COVID-19 at home and post COVID complications
2. Ensuring access to essential medical supplies for management of COVID-19
3. Tools for dissemination of verified information and tackling misinformation
4. Mental health support for frontline health workers and people affected by COVID-19

## PARTICIPATION CRITERIA

### Ideathon

is open to school and college students

### Hackathon

is open to both individual innovators and early stage start ups

## SUBMISSION OPEN TILL: 10/06/2021

The winner from each category will be awarded INR 50,000 and will be provided mentorship by leading industry experts as part of the TGI Health Innovation Fellowship
